

FLEXIBLE TOP HAT WITH JUBILEE CLIP

The Laydex Top Hat is a pre-formed section that provides a safe and effective sealed connection around pipe penetrations in a radon barrier membrane.

It helps complete a radon barrier system that prevents the ingress of harmful radon gases to protect your health.

This Top Hat section is easy to install, durable and flexible.

WITH STAINLESS
STEEL JUBILEE CLIP

EASY TO INSTALL

STRONG & FLEXIBLE

HELPS TO PREVENT INGRESS OF GAS

HEIGHT: 9 CM
WIDTH: 28 CM

DEPTH: 28 CM
WEIGHT: 0.1 KG

Top Hat Pipe Collars

Top hat pipe collars come in 110mm as standard.

Common applications are for soil /service pipes passing vertically via a gas barrier or membrane to maintain a continuous seal.

Please note, sealing tape (RADEX radon tape) is supplied separately.
